---

Chalmette:

- Air monitoring and sampling night crews worked from 1800 5/21/10 through 0600 5/22/10 without incident.
- Crews reported 0 exceedances of the site specific action levels established for air quality.
- SUMA canisters from C05, C04, and C02 are currently outfitted with 24 hour regulators, pressures are being recorded in logbook each time site is visited.
- All sampling information was published during the night, with plans to publish monitoring data at noon on 5/22/10
- All crews reported safe working conditions.
- No odor or visual detection of oil.
  
- All equipment operating properly

Venice:

- No problems with air stations V02, V03, or V05
- Crews reported 0 exceedances of the site specific action levels established for air quality.
- Air monitoring and sampling night crews worked from 1800 5/21/10 through 0600 5/22/10 without incident.
- No monitoring instrumentation issues to report.
- All sampling equipment operating properly
- Air station V03 now has hard line power.
- No health and safety issues to report.
- No olfactory or visual observations to report
